Important Meeting of Hospital District Finced for Illegally Impounding Horses

Prentice Incident Not Yet Closed

The meeting of the Trustees of the Hospital District held on Saturday was occupied mainly with reports dealing with the board's action in engaging a qualified architect to revise the plans and specifications prepared by J. B. Prentice, the architect's report on the plan etc., the departments remarked on the board's action and the board's solicitors' opinion re the same together with their recommendation as to settlement with J. B. Prentice.

The correspondence received from the department at Edmonton fully endorsed the board's action in rescinding previous motions dealing with the contract for building the hospital and heartily approved of the decision to engage a qualified architect to prepare new plans and specifications.

A letter from the secretary of the department was as follows:
"There is nothing to indicate that Prentice had been awarded the contract before the Minister's approval had been given. The Minister had not approved of contract and consequently it would not appear that the Board is in any way responsible to Prentice in connection with the contract. The Board has adhered strictly to the regulations and is perfectly in order."

He enclosed a remarkable telegram which he had received from Prentice, which in the light of above letter is absolutely inexplicable. The telegram was as follows:
"I heard not comply with request of Minister as delivered in your letter of September 9th, but decided to call for new tenders. As contract already awarded I am still compelled to take steps to protect my interests under same."

Finced for Illegally Impounding Horses

A trial of more than passing interest was held at Bassano on Wednesday before Justice Carnegie, when O. Stein was charged with illegally impounding several head of stock belonging to Jack Ogilvie.

The plaintiff stated that Stein had driven a number of his horses from his (Stein's) farm, (which was not in a pound district nor was it fenced with a legal fence) a distance of seven miles to the Baysa Pound, where he had filed a claim for damages at the rate of \$3.00 per head, and that after plaintiff had laid information on the previous charge, the defendant had driven four mares and three sucking colts to the same pound and claimed \$10.00 per head damages.

The defendant in his evidence stated that he was a Norwegian by religion, and thereafter adopted a stubborn and sullen attitude towards the justice, who was not only perfectly fair and impartial but endeavored to assist the defendant in every way. Upon being checked in the middle of a long and irrelevant statement set down and said he would appeal.

Again when interposing between the justice and plaintiff's solicitor the defendant was decidedly impertinent to the bench, and had to be called to order sharply by Cor. White.

He admitted that he was aware his land was not in a pound district and also that it was not fenced with a legal fence.

The justice made further efforts to assist the defendant in his evidence but could obtain no defence whatever.

The defendant was fined \$25.00

Strike In Britain A Serious Problem

London.—Though it would be premature to abandon hope of a settlement of the railway strike, the situation has disappeared the possibility of some arrangement resulting from the numerous conferences between the labor representatives and the government, and the position is again grave. James Henry Thomas, general secretary of the National Union of Railwaymen, announced that the efforts to reopen the negotiations had collapsed, owing to government refusal to go beyond its previous offer, but appended that other unions than the railwaymen were continuing their efforts at mediation, but, while the strike continued, the railway men would do nothing to hinder mediation.

After a conference of the executive of the railwaymen and transport workers, Mr. Thomas issued a statement in which he said:

"Rumors of a settlement are incorrect. The negotiations have broken down, inasmuch as the government offer does not differ from that of September 26.

The government is increasing its organization to ensure service and under emergency powers have closed Regent's park to the public. It is using the park as a clearing center for market produce, frozen meat and fish, in the same way that Hyde Park is being used for the distribution of milk.

Both the Prime Minister and Secretary Thomas have been shown on every motion picture screen, setting forth briefly the respective attitudes of the government and the union.

The Premier declared that the government was not engaged in fighting trades unions, but to prevent an attack against the life of the community. Secretary Thomas declared that the railwaymen were not fighting the community against a conspiracy to lower wages.

Women of Archangel Are Buying Poison

Intent to Kill Themselves Rather Than Fall Into Hands of the Reds.

Paris.—Chemist shops at Archangel are openly selling poison to many young women who are buying it with the expressed intention of killing themselves rather than fall into the hands of the Bolsheviks, according to a United States officer who has just arrived from Northern Russia.

While several shipments of Bolsheviks have been detected from Archangel by eastern powers the majority of the anti-Bolshevik population refuse to leave, saying it is impossible to go peacefully into a strange country.

German Agent Sentenced
New York—"Count" Max Lyman Louden, a former German agent, who included among his exploits a plot to kidnap President Wilson and invade Canada with 150,000 German recruits, was sentenced to three years in Sing Sing prison recently for attempted forgery. The "count" was recently released from the same prison where he has spent his time since April, 1916, serving an indeterminate sentence for bigamy.

British Occupy Odessa
Vienna.—Troops from the British fleet in the Black Sea have been landed in Odessa, where they have occupied the city, according to advices received at Budapest.

Huge Stocks Held In Cold Storage

Winnipeg.—There is sufficient butter in cold storage in the warehouses of the Manitoba Cold Storage Company and the William Davis Company to take care of Manitoba's home consumption for nearly five months, reports filed by the managers of the two plants at a recent session of the Board of Commerce food probe revealed.

Geordan W. Shantz, general manager of the Manitoba Cold Storage Company, stated that there are in storage at present 1,200,000 pounds of butter. John MacPherson, manager of William Davis' plant, has 867,000 pounds of butter in storage, making a total of 2,067,000 pounds of butter stored in these two warehouses at present. Both managers declared that this was nothing out of

Notables Marked For Assassination

Testimony Given by Former Military Attaché to German Consulate

San Francisco, Cal.—Charles M. Schwab, Sir Cecil Spring Rice, former British Ambassador to the United States; Lord Fisher, of the British Admiralty; the late Lord Kilbuck, and the British vice-consulate at Externado, Mexico, were marked for assassination by agents of the German government, according to sworn testimony given by former First Lieutenant Wilhelm von Brinken, formerly military attaché of the German consulate in San Francisco, to the committee of the House of Representatives.

A transcript of the statement was received here by Attorney Henry M. Owen, von Brinken's legal adviser in San Francisco. Von Brinken is a two-year sentence in the federal penitentiary at McNeil's Island for the part he played in the so-called Hindu conspiracy case.

D'Annunzio Aids Regulars

Blockade of Fiume Is More Severe Than Formerly

Rome.—Orders closing the Jugoslav frontier have led the chief of staff of the 26th Italian regiment army corps at Abbazia to interview Captain D'Annunzio's chief of staff and discuss measures to be taken. This has resulted in the sending of some of Captain D'Annunzio's volunteers to hold the armistice line according to the Epoca, which adds: "The event shows the cordial collaboration between the D'Annunzio troops and the regulars."

The correspondence of the Epoca says the blockade of Fiume is more severe than formerly, even mail being held at the frontier. There is food sufficient for three months for the population of Fiume.

Milk Adverts in Toronto

Instead of 15 Tickets for a 'Dollar' Consumer Will Receive Only 13

Toronto.—Under the order of the Board of Commerce, the price of milk will be increased here. Instead of 15 tickets for \$1, the consumers will now receive 13 tickets for the same amount, which means an advance of a cent per pint.

The board permitted an increase to the farmer of 45 cents 2 cents a quart, or a half million pounds of increased income to the farmers of \$2,700,000, or \$95,000 per year.

Kolkah's Appeal
Omaha.—Coincident with the issuance of a decree of the government of a Zemstvo congress, Admiral Kolkah, head of the all-Russian government, made an appeal to the population to drop party struggles and unite around the government.

Custom Receipts

Ottawa.—Custom receipts for the six months of the fiscal year ending September 30 totalled \$25,200,212, an increase over the same period last year of \$256,323. For the month of September alone receipts totalled \$1,483,340, which was \$275,729 greater than in September, 1918.

Manitoba Cold Storage Plant Has a Matter of 1,100,000 Eggs in Storage

Particulars of the butter stored with the William Davis Company showed that Arthur Lobb, M.L.A. for Rockwood, has 15,500 pounds.

Over a half million pounds of frozen beef is stored by the same firm for Gordon, Ross and Pares, who are the sole buyers of the province. One of the men assisting with the work of the commission made comment at the close of the session that the total value of the stock in cold storage in Manitoba before the board was through its probe.

Clothing Is Next On Price List

Retailers Will Be Called To Give Evidence

Toronto.—Another sitting of the Board of Commerce will be held here, when Judge Robson, chairman, W. C. O'Connor, vice-chairman, and F. A. Acland, deputy minister of labor, will be the commissioners present. The probe will embrace the retailing of the high price of wearing apparel. Retailers will be called to give evidence, and the costs will be worked back to the manufacturers to see where the great spread comes in the prices of all textiles at the present time.

The sitting of the court promises further interest in the fact that the "five fives" packers will be on hand to fight the matter of the price of bringing down the price of wholesale pork products.

Cheap Lignite Coal

Briguet Industry In Southeastern Saskatchewan Would Be Paying Centner

Winnipeg.—That the last problem in the manufacture of briquets in the lignite fields of southeastern Saskatchewan and Southwestern Manitoba had been solved, and the last doubt as to the feasibility of the plan had been removed, was the statement of Hon. T. H. Johnson, attorney-general, who stated that the industry shown over the experimental plant of the lignite utilization commission at Ottawa. The commission, which Johnson was proceeding with the plans for erecting a plant which would produce briquets on a paying basis, and will prove the industry to be a good profit-making business enterprise. These briquets, he said, would be sold on the market in the fall of 1920, and would sell for approximately \$10 per ton. They were in every way equal to the American briquets, and the industry would be financed by the Federal Government and the Provincial Government of Manitoba and Saskatchewan.

Politics In Luxembourg

Retention of Grand Duchesse Charlotte as a Sample Between Certain

Luxembourg.—Balloting in favor of the retention of Grand Duchesse Charlotte as ruler, and of the establishment of an economic alliance with France instead of with Belgium, continued to show the winning majorities at the start of the second day of count of votes cast in the Plebiscite to determine the future of the Grand Duchy.

The French economic alliance continued to lead in favor of a vote of 11,132, while the Belgian alliance, 11,132 were recorded for the Grand Duchesse and 2,868 for the republic; 10,071 votes were recorded for an economic alliance with France, and 3,130 for Belgium.

Probably 80,000 votes were cast in Luxembourg, but not all voters did vote. Those not voting included the Socialists, those not expressing abstention. The Socialists claim nearly one-fifth of the electorate.

Hawaiian Volcano Active

Thirty-Mile Stream of Lava Pours Into the Sea
Hilo, Hawaii.—A stream of lava from 800 feet to one mile wide and 30 miles long is pouring from the 13,000-foot crater of the volcano Mauna Loa, across the island from the coast into the sea.

The lava overtopped the crater, and the sea has been encroached upon so. The eruption of Mauna Loa began four days ago and subsided in violence after a brief duration, only to break forth with new force again. Two ranch homes and other valuable property have been destroyed by the molten rock.

To Change Name of R.N.W.M.P.

Ottawa.—The Northwest Mounted Police is to change its name. In the House Mr. Rowell presented a Bill to amalgamate the Northwest Mounted Police with the Dominion police, to constitute one federal police force. The name of the Northwest Mounted Police will be changed to that of the Royal Canadian Mounted Police.

Good Roads Construction

Winnipeg.—The construction of 27 miles of roads, under the Good Roads Board, is announced. The approximate cost is \$60,000. This is the total to be paid up to \$750 at a cost of about \$24,000, borne equally by the province and municipalities.

Rumanians Seize German Plane

Manned by Four Officers Who Resisted Their Arrest

Genoa.—Rumanian troops have seized a big German biplane carrying 300,000,000 paper rubles and 100,000,000 gold coins, and captured pilot, at Hoin, Besarabia, according to the Rumanian bureau at Jassy. The plane, which was en route to Moscow, was forced to land at Hoin because of a leak in the gasoline tank. It was manned by four German officers, who were said to have resisted their arrest. The rubles were all said to have been new notes.

Russian General Must Apologize

For the Arrest of Two United States Officers

Vladivostok.—Maj.-Gen. Graves, commander of the United States forces in Siberia, has demanded an apology from General Rozhnoff, in connection with the arrest of two United States officers, Captain L. P. Johns and Corporal Benjamin Sperry, by Cossacks commanded by General Kaniukoff. An investigation of the conduct of a Japanese officer at Imnan, the place where the arrests took place, has also been begun by the Japanese high command. The incident, which occurred September 5, is considered one of the most serious to occur since the allies landed in the Far East. The Japanese officer, who claimed the Americans were not provided with identification papers.

May Flame Into War

Italian Situation Becoming More of an International Question

Paris.—The inflamed conditions in the Adriatic region and the dissolution of the Italian parliament for the holding of a general election on November 15, as announced to another announced, is giving the supreme council much concern, in view of the possibility of all the Balkans becoming involved in the turmoil. In peace conference circles the approaching Italian elections are regarded as a sample between peace and peace parties, or rather between the forces on the military side and the forces on the pacific side, which it appears that D'Annunzio and Fiume would be an issue. A feeling is growing in Paris that as D'Annunzio has indicated his aspirations include far more than Fiume, the Italian situation is daily becoming more of an international question.

The view is expressed here that the agitation might flame into war between Italy and the Balkans should happen to be killed by Italian troops.

U. S. Shipyard Tied Up Now

About 60,000 Men in Grip of Great Industrial Struggle

San Francisco.—Involving approximately 60,000 men, including both skilled and unskilled labor, San Francisco, Oakland and Alameda are in the grip of industrial disturbances which have greatly hampered industry in the entire San Francisco Bay district. Shipyard and iron trades workers, millers, stevedores, taxi drivers, clerks, street railway employees, his ferry boat employees and river steamer men are affected.

The most serious development in the labor situation came when 25,000 shipyard and iron trades workers in Oakland and Alameda, and 30,000 in San Francisco, struck. The shipyard and iron workers went out in an effort to force the payment of a wage increase of eight cents per hour.

Union officials say the tie-up of the shipyards is complete. No statement was forthcoming from the California Metal Trades Association.

Fire Wipes Out Town

St. John, N. C.—On Monday picture and thriving town of Sanbury County, was almost totally destroyed by fire with a property loss of about \$200,000. The fire started in the river valley's lumber company saw mill, and mill offices and yards, with about 4,000 feet of lumber, with a loss of about 100,000 feet of lumber and several dwelling houses, the lumber company's loss being \$200,000.

Spanish Villages Flooded

Madrid.—Carcagente and Liria, villages in the province of Valencia, are reported to have been flooded by floods. The damage is reported heavy.

Adriatic Question Must Be Cleared

French Government Approves International Show

Planned to Bring Producers and Buyers Together

Paris.—An immense project of erecting a huge building on the banks of the Seine in Paris, in which will be held a permanent exhibition designed to bring together the producers and buyers of the world, has found the support of a French financial corporation. The object is to promote commercial intercourse between allied and friendly nations. The building, which will be constructed by the Cui de Paszy, will probably cost \$20,000,000. There will be held a continuous world's fair. The proposition has the approval of the French authorities. Twelve or 15,000 acres of land have been secured as a site. The structure will have a frontage of 485 feet and a depth of 600 feet. The floor surface will be nearly two and a half million square feet.

Bela Kun Not Wanted

Bolshevik Agitator Has to Be Transferred to Avoid Violence by Populace

Milan.—Bela Kun, who was interned by the Austrian Government at Heidenheim, near Rast, had to be transferred. The inhabitants of the neighboring villages, chiefly peasants, were so exasperated at the presence of the notorious Hungarian Bolshevik director that they held a meeting and threatened to use violence. The Austrian Peasants' League and the officials of the district also made representations at Vienna, and the government considered it wise to remove the objectionable prisoner. Bela Kun was, without warning, transferred to another habitat, and the locality is kept alert to avoid similar protests.

Sugar Rationing Suggested

Shortage at Calgary Is Acute, and This Idea Is Put Forward

Calgary.—The adoption of the sugar rationing system used in England, have broken down for the time being at least, as a result of the railroad strike. A duke was seen driving a motor car "tarry" his streets, while an earl was in the chauffeur's seat, on the motor headgear of a motor car. The municipal magistrate, the sixth earl of Port Arling, was among those whose names are found in the social register who were engaged in a "tarry" through the streets, milk and churns from a train. Frederick Henry Smith, son and heir of Baron Rayleigh, was the firstman on the Liverpool-London express when it rolled into this city.

Black Railway Is Slowly Decaying

The Erie, Pa.—The electric and neglect are slowly crumbling the terminals of the Hudson's Bay railway at Port Nelson, according to Captain MacNeil, who is the mounted police patrol boat, who has just arrived here from the bay. He declared that the roadbed of the railway itself from Mile 214 is rapidly going to pieces, and all along telegraph poles are lying on the ground. The terminal shops, and are lying in a state of rust and decay.

Negro Attacks White Woman

Omaha.—Mrs. W. G. Wimer, a white woman, was attacked by a negro in the rear of her home. The negro escaped.

The Wimer home is in the heart of Omaha's "black belt," which is under control of military authorities under the command of Major-General Leonard Wood.

Wooden Man to Go

Hindenburg.—The great wooden of Hindenburg monument, which during the war was studied by the populace with nails, representing so much money, was to be demolished, according to the Vossische Zeitung.

Too Much Canadian Bacon

So Pleading That It Is Being Sold To Soapmakers in England

Montreal.—The Herald quotes a man who has just returned from Liverpool as claiming that unrecruited Canadian bacon was sent to the soap factories in England. "Canadian bacon" is a term used in England, says the Herald's informant. "When I was at Liverpool 2,000 cases of Canadian bacon were going to be sent to the soap makers. It was sold to Lever Bros. to melt down to soap. Cases of Canadian bacon of soap-plant lard cases sold for 12 each, or 28 cents for 100 pounds."

Hunger is sure to come to those who sit down and wait.

Washington.—To Allow Italy's Claim To Fiume, solely on the basis of its forcible occupation by D'Annunzio's irregular troops, in the opinion of members of the supreme council in Paris, would involve recognition by the entire of Rumania's "claim in Hungary; Greece's claims to large portions of Turkey, and even possibly Germany's claim to rich portions of Western Russia. It is felt that admission by the council of the right of any nation to seize territory regardless of pledges to refrain from aggression, would be regarded as tantamount to an abandonment of the basic principles upon which the peace conference was assembled and as threatening a permanent peace.

Plans already are being considered, it became known here, to apply strong pressure to bringing about a termination of the dispute over the Adriatic question, as well as in other cases where trouble has arisen jeopardizing the authority of the supreme council and threatening to set at naught its decisions founded upon decisions of Western Russia. It is felt that admission by the council of the right of any nation to seize territory regardless of pledges to refrain from aggression, would be regarded as tantamount to an abandonment of the basic principles upon which the peace conference was assembled and as threatening a permanent peace.

It is felt that admission by the council of the right of any nation to seize territory regardless of pledges to refrain from aggression, would be regarded as tantamount to an abandonment of the basic principles upon which the peace conference was assembled and as threatening a permanent peace.

Strike Levels Social Distinction

London.—Social lines, which might be expected to be blurred by the strike, have been broken down for the time being at least, as a result of the railroad strike. A duke was seen driving a motor car "tarry" his streets, while an earl was in the chauffeur's seat, on the motor headgear of a motor car. The municipal magistrate, the sixth earl of Port Arling, was among those whose names are found in the social register who were engaged in a "tarry" through the streets, milk and churns from a train. Frederick Henry Smith, son and heir of Baron Rayleigh, was the firstman on the Liverpool-London express when it rolled into this city.

The view is expressed here that the agitation might flame into war between Italy and the Balkans should happen to be killed by Italian troops.

Aristocrats Load Freight, Drive Engines and Handle Fiume

A Money-Saving Bottle
A Bottle of Bovril in the kitchen will cut down a larder's bills. It not only increases the nourishing value of food—in fact, its food-building powers have been proved ten to twenty times the amount listed. It must be Bovril.

To Check German Army
Decision Reached Fling Status of Body of Military Experts
Paris—Marshall Foch, the allied commander-in-chief, obtained from the supreme council a decision fixing the status of the body of military experts charged with the determining at the end of each quarter the number of German divisions in the German army for the succeeding quarter. The marshal sent the council a note asking that the body be included among the missions of international control, and the council granted his request.

With the Fingers!
Says Corns Lift Out Without Any Pain

Admiral Beatty Given Banquet
Unique Compliment by Sailors to Admirals of British Fleet
Portsmouth, England.—Vice-Admiral Sir David Beatty was given a unique compliment which was that of admirals, he was entertained at dinner in the town hall here by some 500 lower deck men, and presented with a silver cigar box as a token of loyalty and affection from all the ratings in the navy.

Belgian Embassy Issues A Denial
Belgian Minister Has Not Been Recalled From The Hague
London, England.—The Belgian Embassy in London has authorized a complete denial of the Berlin report that the Belgian Minister has been recalled from The Hague and the Dutch Minister from Brussels. It is explained that the return to their respective countries of Carlos De Wiert and Van Vollenhoven is merely a coincidence.

DREADED INFLUENZA
Medical Men Believe It Will Again Visit Canada This Autumn and Winter
There is a widespread belief among medical men that the grippe or influenza, which swept over the world last year, will again appear in Canada during this autumn and coming winter. This dangerous trouble spares neither age nor sex, but it naturally finds its easiest victims those who are run down in health, or those whose blood is weak and watery, and it is among the latter class in which the greatest number of fatalities occur.

Fish-Catch Increases
Total Value on Both Coasts For Month, \$4,485,722
Ottawa.—An increase of \$225,812 in the total value of sea fish at the point of landing during the month of August, as compared with the same month last year, is shown by the monthly summary of the commercial fishery department. Fish to the value of \$4,485,722 were taken on both coasts last month.

SUMMER COMPLAINT IS A SERIOUS BOWEL TROUBLE
Very few people escape an attack of summer complaint. It is slight, or it may be severe, but nearly every one is liable to it. You can get it from eating or drinking anything that is out of season, or you may get it from eating or drinking anything that is out of season, or you may get it from eating or drinking anything that is out of season.

Sheep And Swine Sale
No Charge for Transfer of Registration of Livestock
Edmonton, Alta.—An innovation in connection with the annual sale of sheep and swine to be held here under notice 22-23 by the Alberta Provincial Sheep and Swine Breeders' Association, is that this year certificates of registration for livestock purchased will be forwarded to Ottawa where the transfer to the new owner will be made free of charge.

Wood's Peppermint Cure
The Great Cough Remedy.
This is the best cough remedy in the world. It is a pure, natural, and effective remedy for all kinds of coughs, colds, and bronchitis. It is a pure, natural, and effective remedy for all kinds of coughs, colds, and bronchitis.

Do You Want to Know
The secret of this mode of construction is lost, and that the only other "twisted chimney," and that less perfect, is at Hampton Court.

DEWS OF EVE
No More Gentle Than "Cascarets" for the Liver, Bowels
It is just as needless as it is dangerous to take violent or nasty cathartics. Nature provides no shock-absorbers for your liver and bowels against alcohol, harsh pills, sickening oil and salts. Cascarets give relief without injury from constipation, biliousness, indigestion, gases and sick headache. Cascarets work while you sleep, removing the toxins, poisons and sour, indigestible waste without griping or inconvenience. Cascarets regulate by strengthening the bowels muscles. They cost no little, too.

Notice To The Public
The Business Known As "FATS
QUICK LUNCH" Has Changed
Hands

I, Wan Foy, owner of Lethbridge, formerly Proprietor of "Fats' Quick Lunch" at Bassano, Alberta, beg to state that I have sold my business known as "Fats' Quick Lunch," Bassano, Alberta, (also the premises) with all going into effect this day and date.
AND I HEREBY WISH TO STATE that I am bound no accounts against "Fats' Quick Lunch" of Bassano, Alberta, after this date.
Dated at Bassano, in the Province of Alberta, this First day of October 1919.
WOK FUY.

Notice to Customers

After November first we will extend absolutely no credit except to stock holders.

We will ask all who have been receiving any credit to adjust their accounts prior to that date and if they wish a 30 day account to take at least one share of stock.

This will entitle them to the credit and interest on the money invested and an amount dividend on the amount of their purchase which will be equivalent to getting their goods at retail cost.

This is real co-operation. If you are in favor of it join with us and help us.

When you see where our service can be improved tell us and help us improve it.

Few Bond Buyers Affected By Tax

It is Interest That Will Be
Taken Not The Principal

There is a general impression abroad that the total amount of money invested by any one subscriber in the Victory Loan 1919 will be subject to taxation. This impression is erroneous. It will be the interest from the investment that will be taxed, not the principal invested.

As a matter of fact very few investors in the new loan will be brought within the scope of the Income Tax Act by reason of investments in Victory Bonds. With small estates and investors the law does not become effective under \$2,000 in the case of married persons or persons with dependent, and \$1,000 in the case of married persons without dependent. Municipalities and fraternal societies will not be subject to tax on their investments in the loan at all. The interest from the bonds will not be more taxable than ordinary income, subject to the general law of the land.

CANADIAN PACIFIC

Change In Train Service
Effective October 12th, 1919.

Everyone Who Bought Canada's Victory Bonds Made Money

EVERY one of the million and a half subscribers to Canada's Victory Bonds knows that he can sell them today for more than he paid for them.

Every one who bought Canada's Victory Bonds has received 3 1/2 per cent. interest per annum—paid twice a year.

Over half a million Canadians who bought Canada's Victory Bonds on the instalment plan saved money that they would not otherwise have saved.

The guaranteed return on Canada's Victory Bonds is the same as the interest on a One Dollar Government Dollar bill. There is no difference, however, the way you get interest on the Bonds and you don't have to pay One or Two Dollars.

Canada's Victory Bonds will always be accepted as security for a loan.

Banks are ready to loan money on Canada's Victory Bonds.

Canada's Victory Bonds may be turned into cash at any time.

There is no other way in which you can invest your money with such absolute security—paying such a good rate of interest.

Canada will soon give her citizens an opportunity to buy Victory Bonds here. It will probably be the last chance to buy Canada's Victory Bonds on such favorable terms.

Prepare to buy as many Victory Bonds this time as you now wish you had been able to buy the last time

Proportional Representation—No. 2

In last week's article on the subject of the advantages of our present system of electing representatives to public office, we mentioned that the P.R. method of electing representatives to public office would have the effect of making the number of votes required to elect a candidate more nearly proportional to the number of votes cast for him.

Figure 1 of the ballot is a representation of the present system of electing representatives to public office. It shows a voter casting his vote for a candidate by marking an "X" on the ballot. The number of votes required to elect a candidate is shown as 100,000.

The theory of Proportional Representation is that each considerable party or group of voters should be represented in parliament, or legislature, or municipal council, in proportion to its voting strength. This means that the number of representatives should be proportional to the number of votes cast for them.

When the ballot with the list of candidates for an office, say a municipal council, is presented, the voter is to be elected, as at present, vote as follows:

(a) By placing the figure 1 after his favorite candidate. The voter may also:

(b) Place the figure 2 opposite his second choice.

(c) Place the figure 3 after his third choice, and so on, numbering as many candidates as he pleases in the order of his preference, and may even so indicate his preference for a larger number of candidates than are actually to be elected.

A candidate, to ensure election, need not poll a majority, but only a certain proportion of the votes cast, called a quota. This quota is the smallest number of votes required to ensure election. For example, in a constituency electing only one member, it is not necessary even that a candidate should poll all the votes; if he obtains one more than half he secures a majority and is elected, because no one else can poll so many. Similarly, under P.R., it would be necessary in a one-member constituency for the candidate elected to secure a clear majority. In a two-member constituency, a candidate who obtains one more than a third would be elected, for two candidates can each poll more than a third. If three members are to be elected, it would take one more vote than a fourth of the votes cast to ensure election.

This quota necessary to election is, therefore, found by dividing the total number of votes cast by one more than the number of representatives to be elected and adding one. For ex-

ample, assuming that there are three candidates to be elected, and the total vote cast was 600. The latter figure divided by four (that is, one more than the number to be elected) gives 150, and this plus one gives 151, which would be the quota, and as not more than three candidates could secure that number, regardless of how many might be in the field, those three would be elected.

The next question is: How are the votes counted and transferred?

(a) The first preference votes obtained by each candidate are noted—these, in the candidate opposite whose names the figure 1 has been marked by the voters.

(b) The quota is ascertained in the manner outlined above.

(c) Candidates, if any, who have received the quota, or more than the quota, are declared elected.

(d) Surplus votes of those candidates who have received more than their quota are transferred, in strict proportion, to the unselected candidates indicated as the next preference by the voters (that is, candidates having the figure 2 opposite their names).

(e) Any further candidates who, as the result of such transfer of surplus votes, have received the necessary quota are declared elected.

(f) The candidates lowest on the poll are then eliminated one after another, and the votes they receive are transferred in accordance with the next choice of the electors indicated on the ballot.

This process is continued until the required number of candidates have obtained a quota, or the number of candidates not eliminated is reduced to the number of seats vacant.

It will be seen, therefore, that whereas under the present system the voter who marks a ballot for a candidate who is at the foot of the poll completely loses his representation in the public body for which the election is held, under Proportional Representation, his having failed to secure the election of his first choice, is not lost transferred to his second choice; if his second choice fails of election, his vote is transferred to his third choice, and so on. Every voter, in the final analysis, is represented by a representative for whom he recorder a preference. Surely, a more democratic and fair way than obtains under our present system.

Next week some examples of how P.R. has worked out where it has been tried will be given, and possibly some of the objections raised against P.R. answered.

Germany's New Escutcheon

Berlin—Germany has a new escutcheon, from which the Hohenzollern arms have been eliminated. It consists of a black one-headed eagle on a gold field. The "new" eagle, which has shed its erstwhile imperial crown and collar, is not a romantic bird and looks not a vibrant red in its living posture but for its color of its beak, tongue and talons, which are red.

BABY'S OWN TABLETS OF GREAT HELP

Mothers, if your baby or growing child is sickly, if he does not sleep well at night, if he cries a great deal, is constipated and his little bowels and stomach are not working right, give him Baby's Own Tablets—they have proved a great help to thousands of mothers. Concerning the Tablets, Mrs. W. H. Decker, Corson'siding, Ont., says: "I have used Baby's Own Tablets and have found them excellent for little ones, and would not be without them. The Tablets are a mild but thorough laxative and are guaranteed to contain no harmful drug—that is why they always do good and never harm. They are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont."

No, Stanley, a man isn't necessary a thief because he takes a picture. He may be a photographer.

Chain of Imperial Aerodromes

London—Right Hon. Mr. Weir, at a public welcome to the crew of the R-34 at Glasgow, stated that his look forward to the time when there would be a chain of imperial aerodromes linking the main units of the Empire and connected by auxiliary services to the smaller satellite ports. He said that he had great faith in the usefulness of coastal flying boats, as proposed in connection with Australian and West Indian coastal services. Military reasons, he said, required the linking up of the Empire by definite routes, largely coinciding with the commercial routes. He deprecated the government action in monopolizing civil aviation, and anticipated great results from the rivalry of private firms.

Sir Robert Home stated that the public had not yet realized the remarkable war work accomplished by the aeroplanes. The Admiralty had started with eight and finished with a hundred—beating the Germans.

Regulate Cold Storage

Washington—Federal regulation of cold storage as an aid in reducing the cost of living was agreed to by the house agriculture committee, as recommended by the President in his address on the high cost of living. The committee reported a bill limiting the time that food may be held in storage to twelve months, and requiring that cold storage food be plainly marked.

RUNNING NOSE COLD STOPPED INSTANTLY

Throat Is Cleared, Headache Stops, Sniffles Go for Good

CATARRHOZE NEVER FAILS

Dripping from the nose is one of the foulest and most disgusting symptoms of a Catarrh of the nose. Catarrh is a disease of the nose which is caused by a cold or by a blow to the nose. It is a disease of the nose which is caused by a cold or by a blow to the nose.

So healing is Catarrh that nothing is so wonderfully beneficial in the minutes of a cough. No drugs to cure, nothing to upset the stomach. Catarrh is a disease of the nose which is caused by a cold or by a blow to the nose.

So healing is Catarrh that nothing is so wonderfully beneficial in the minutes of a cough. No drugs to cure, nothing to upset the stomach. Catarrh is a disease of the nose which is caused by a cold or by a blow to the nose.

Keeping Fit

By DR. RANGLER HAMILTON

It is because of the war that the perfect physical man has all at once become the ideal of the world. You can make of yourself, even rather late in life, almost anything you like. You are not going to get fit in one day, one month, or perhaps, a year, unless you take enough outdoor exercise to keep the circulation going and practice the athlete's first principle—to keep the system clean. He does not give his body a chance to absorb poisons. He not only takes his cold shower, after exercise, but he knows a cleansing of the intestines is important, and he takes occasionally a good regulator and liver cleanser, such as a dose of castor oil, or what is much better, a tiny pill made up of May-apple, aloin and jalap, and sold by almost all druggists in the land as Dr. Pierce's Pleasant Pellets.

Keep the kidneys in good order also. Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking "Anurio" (anti-uric-acid). This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, acid-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night. Take heed, before too late! Get Anurio (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package of "Anurio."

ies were found in the village, Van

Valin reported. Their clothing and the shape of their heads and other parts of their bodies differed from the clothing and bodies of the present day Eskimo. Remains of several of the Eskimos were shipped by Van Valin to the museum.

Evidently the ancient village was overtaken by some catastrophe, it is believed. None of the present natives of the Borow section knew of the existence of the lost village.

Teacher: "A biped is anything that goes out two feet. Can anyone name one?"

Pupils: "Sure, a pair of stockings."

Eighty well-preserved frozen

Bodies Were Found

Nome, Alaska—Discovery of an ancient buried Eskimo village near Point Barrow, the "kumuk" or "kumuk" was made recently by W. B. Van Valin, who has arrived here by the way to the States after spending nearly two years in the Borow country for the University of Pennsylvania museum, gathering relics of what has been termed the "stone age" of the natives of far northwest Alaska.

JOS. WRIGHT,
Box 26 Ten years local Manager. Phone 31

Local and Personal.

Secretary Carnegie was a business visitor to Calgary on Tuesday.

Born—To Mr. and Mrs. Tegerdine, on Monday October 18th, a daughter.

A change in train service is advertised commencing from October 12th.

Ye Olde Time Maquerade Ball at Bassano, Hallon'E'en night. Swell Music. Real Time.

Tenders for the Hospital Extension will be opened at a meeting of the trustees to be held on Saturday.

Mrs. A. G. Bond returned from the east on Monday where she has been visiting friends and relatives in Toronto, Montreal, etc.

Jack Allan ought to be awarded the Royal Humane Society's medal for a recent brave exploit in rescuing two little kittens from a horrible predicament.

Manager Torgan informs us that "How Could You Just" is one of the best of lovely little Mary's pictures, which is going home, for Mary has a knack of making splendid pictures all the time.

The New Royal Cafe is one of which Bassano can be proud and should prove a boon to the poor beleaguered bachelors who have to frequent such places. Lee Wah is to be congratulated upon his enterprise.

Suitable prizes offered at the Masque Ball on Hallon'E'en, October 31st. Get one. Admission \$1.50; Spectators 50c. Maquerade have the floor till 12 o'clock. Grand march 9 sharp.

Scotty McLane, who has recently accepted a position in the local law office of Hargis, Mayr & McLane, was the star in the opening rugby game at Calgary on Monday. Bunking the line seems to be a specialty of Scotty's as he has only recently returned from backing the Blues last week.

Death of Miss Cottrill

The funeral of Miss Emily Cottrill, for many years associated with the Y.M.C.A., took place yesterday afternoon from Christ Church Cathedral, Victoria, where the Very Rev. Dean of Columbia took charge of the services. The attendance was testimony to the very great affection and esteem in which the deceased lady was held by her former associates in the "Y," and many beautiful flowers which were placed on the casket were further tributes to one who had many friends in the city.

The late Miss Cottrill, who was house superintendent at the Victoria Y.M.C.A. for several years, was at one time resident in Bassano and the news of her death will come as a shock to many who formerly were acquainted with her.

The Imperial Oil Co., has commenced work upon its new storage tanks and the sound of the electric welder which is being used sounds like music in the ears of those of us who have dreams of Bassano's progressive city ward.

Jack McClellan who is farming George Clark's farm at Huesar is threshing his wheat and finds it panning out a little better than 25 bushels per acre. Roy Smith and ourselves saw him do it so there's no cowboy about it. Roy incidentally sold him a new Ford and gained another trader for Bassano.

The Rev. Lescroft of Calgary officiated at the Anglican Church last Sunday in place of Rev. Dingle, who was prevented from coming by the severe illness of Mrs. Dingle. Mr. Lescroft made a profound impression upon the congregation and the services were all splendidly attended. The church was beautifully decorated for the occasion.

Bassano Lodge, A.F. & A.M., was honored by a visit from Grand Master Bottrell, and D.D.G.M. Nesbitt of Brooks on Friday last at a lodge of instruction. A large number of Masters from Gleichen and Strathmore were present. In addition to the mystery of freemasonry in lodge, a visit to the dam site and an inspection of the machinery there was provided for the visitors.

We Pay One Half

The purchase price of this famous 1881 Rogers A1 Plate

WE give coupons with every 25c. purchase of all the high grade guaranteed products made by the United Drug Company. We are willing to lose money on the silverware to get you acquainted with their goods, which are standard in their line.
